EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with applicants' representative, Bryan Davidson on August 24, 2007.

The application has been amended as follows:

In claim 4, line 2, "to20x10⁵" has been amended to read, "to 20 x 10⁵".

In claim 5, line 1, "5x10⁵" has been amended to read, "5 x 10⁵"

Allowable Subject Matter

The following is an examiner's statement of reasons for allowance: the instant claims are drawn to a method of preparing 2-methyl-2-hepten-6-one by reacting 2-methyl-3-buten-2-ol with isopropenyl methyl ether. The closest prior art of record, for example, U.S. 6,034,279 to Kashammer et al, teach the preparation of unsaturated ketones by reacting a tertiary allyl alcohol with an alkenyl alkyl ether, in the presence of a phosphorus acid derivative. However, the closest prior art fails to teach or fairly suggest conducting such a reaction in the presence of hydrogen tris(oxalate) phosphate or hydrogen bi(oxalate) borate, as catalyst, as recited by the instant claims.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably

accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
